RULES AND OTHER PROVISIONS WHICH GOVERN THE TARIFF

ITEM

DECLARATION of VALUE – LIABILITY LIMITATION

Shipments moving under the rates named in this Tariff are subject to the release valuation provisions shown below:

848
①

- A: As used in this Tariff, the phrases "released value", "declared value" and "value declared by the shipper" shall have the same meaning.
- B: The carrier shall require the shipper to state specifically **in writing** on the Bill of Lading the declared value of the shipment in cents per pound, or a lump sum value for the entire shipment, prior to the commencement of service.
- C: The shipper shall have the following options for the declaration of value and the carrier's maximum liability shall be limited in accordance with the declared value:
 - 1: **Released Value Protection: Sixty (60) cents per pound** for the actual weight of any lost or damaged article. The released value must be entered on the Bill of Lading in the following form and must be **completed by the person signing** the Bill of Lading.

The shipment will move subject to the rules and conditions of the carrier's Tariff.
Shipper hereby releases the entire shipment to a value not exceeding:

_____ (to be completed by the person signing below)

NOTICE: The shipper signing this contract must insert in the space above, in his/her own handwriting, either his/her declaration of the actual value of the shipment, or the words; "60 cents per pound per article", otherwise, the shipment will be deemed released to a maximum value equal to ♦\$6.00 times the weight of the shipment in pounds.

_____ (Shipper)

_____ (Date)

- 2: **Replacement Cost Protection: \$6.00 times the actual weight** (in pounds) of the shipment or declared lump sum value, whichever is higher. When the shipper elects the Replacement Cost Protection option the following valuation charge shall apply:
For each \$100.00, or fraction thereof, of declared value at \$6.00 times the weight of the shipment in pounds or declared lump sum value, whichever is higher, the valuation charge shall be **\$.85 per each \$100.00 of value.**
 - a: When Replacement Cost Protection is ordered **in writing** by the shipper, the carrier will provide ▲either replacement of articles lost or damaged while in the carrier's custody, reimbursement for full replacement cost, or satisfactory repairs.
 - b: When Replacement Cost Protection is ordered, this Item applies in addition to other Items in this Tariff. Where provisions of this Item conflict with other Items in this Tariff, provisions of this Item will apply.
 - c: Replacement is defined as providing as good as, or equal to in economic value to the lost or damaged Item(s).

EXAMPLES:

Released Value Protection As an example, if a 200 lb dresser is damaged, the shipper will be compensated at \$.60/lb, or 200 x .60 = \$120.00 Cost of protection for shipper: None.

Replacement Cost Protection Goods are valued at a) \$6.00/lb or b) a lumpsum amount declared by shipper, whichever is higher. If shipper does not declare a lumpsum value, then a 5000 lb shipment would be valued at \$6.00 x 5000 lbs or \$30,000. Regarding same damaged dresser, carrier either replaces item, pays for the repairs, or pays shipper for the item's current market value.

If shipper declares a value of \$40,000, shippers cost is \$.85/\$100 of value x \$40,000 = \$340.00 Shipper compensation is same as in above example.

<p>D: If a shipper refuses to agree to a declared valuation in writing, the shipment may be refused.</p> <p>E: If shipper fails to state a declared value in writing, as required in Subsection B of this item, and the shipment is accepted by the carrier, the shipment will be deemed released to an amount equal to \$6.00 times the actual weight of the shipment (in pounds), and the carrier will provide Replacement Cost Protection at the shipper's expense. For shipments moving under the rates named in Section 3, the released value of the shipment will be estimated calculating the weight of the shipment as 7 lbs per cubic foot of space utilized and then applying \$6.00 times the estimated weight of the shipment.
